13	USB Charging Port

Charging the speaker

To charge the Bluetooth speaker, connect the supplied micro USB cable to the USB charging port and the other end to your computer or USB charging device. Make sure you charge your Bluetooth speaker fully for the first time. Before using it for the first time we recommend you charge the battery fully.

Turning ON/OFF the Speaker

Before Turning ON the speaker, please ensure that it is fully charged. Press the power button to switch the device ON/OFF.

TWS function

It is possible to use two copies of this speaker, paired together, to benefit from a stereo sound. To do this, turn on both speakers, then press the Pause/pone button on one of them once. The two speaker will connect to each other. You can then pair your device with the stereo unit by following the procedure below. Ensure that both speakers are spaced less than 10 meters.

V-TAC®

Pairing speaker with bluetooth device

1. Turn on the Bluetooth speaker.
2. Open Bluetooth function on your device and search for "SKU-7726".
3. If a PIN is required, enter the password '0000' to confirm to finalize pairing.
4. Connect it with your bluetooth enabled device.

Button functions

	Press the Phone once to answer an incoming call. Then short press the Phone button to end a call. Press and hold the Phone button for 2 seconds to reject a call.
	Press the button to pause a song while playing music, press again to resume playing.
	Mode: Switch between Bluetooth/ Aux/ TF card/USB playing/FM radio
	Press and hold the button to increase the volume, press shortly to next track
	Press and hold the button to decrease the volume; press shortly to previous track
	Press to disconnect bluetooth from your phone, press again to re-connect with your phone

USE FM radio

1. Insert the USB cord (included) into the charging port. Leave the other end of the cord open. USB cord serves as FM Antenna while in FM Radio mode.
2. Short press Mode button each time until FM mode is selected.
3. Short press Play/Pause/Phone button and the device would automatically search and store all the FM Radio stations.
4. Short press + or - button to change the FM Radio stations.
